

CHARLY TOKEN

Official Whitepaper – April 2025

Charly Token (CHA) Whitepaper

♦ Introduction

Charly Token (CHA) is a community-first token built on Binance Smart Chain, created to honor the memory of a beloved dog named Charly. It combines meme culture with genuine utility, full transparency, and security. The project aims to stand out in a sea of scammy tokens by offering a safe, tax-free and rug-proof investment experience.

♦ Mission & Vision

Our mission is to create a token that celebrates loyalty, community, and honesty — just like Charly himself.

We envision an open ecosystem built around fair launches, real NFT utility, burn mechanisms, and presale transparency — all powered by a passionate, no-bullshit team.

♦ About Charly

Charly was not just a dog — he was family. Despite physical disabilities in his final years, Charly's joyful, goofy spirit never faded.

This token is a tribute to his memory — a symbol of resilience, love, and loyalty. We're bringing that spirit to the blockchain.

♦ Tokenomics

- **Total Supply:** 1,000,000,000 CHA
- **Burn Reserve:** 50,000,000 CHA 🔥 (5%)
- **Presale Allocation:** 240,000,000 CHA 🎯 (24%)

♥ Final Words

Charly Token is more than just a meme coin. It's a movement — born from love, driven by code, protected by transparency. If you're tired of scams and rugs — welcome to the family.
